PRIMARY HARMONISED CURRICULUM (Kindergarten to year 6)

The harmonised curriculum is the meshing of French and Australian curricula, pedagogy and professional approaches to achieve the aims of this binational and bicultural school.

The students develop knowledge, skills and values important to both cultures. Our program is designed to enable students, if necessary, to enter any Australian or any French school and to qualify for major certification in either English or French.

Harmonisation also includes the celebration and observance of traditions and national/special days.
