# Positive Behaviour for Learning

- Positive Behaviour for Learning (PBL) is an evidence-based framework
- Research over 20 years has demonstrated the effectiveness of the whole-school community contributing to developing a positive, safe and supportive learning culture.
- The framework assists schools to improve social, emotional, behavioural and academic outcomes for children and young people.
- The PBL framework has been introduced to the A.C.T. as a system wide program in all schools.

# Positive Behaviour for Learning

When PBL is implemented effectively, teachers and students have more time to focus on relationships and classroom instruction. Students and staff benefit from:

- reduced inappropriate behaviour
- increased time focused on instruction
- improved social-emotional wellbeing
- positive and respectful relationships among students and staff
- support for teachers to teach, model and respond effectively to student need
- a predictable learning environment where staff and students know what is expected to deliver effective practices that can be sustained over time

# Positive Behaviour for Learning

## How long does it take to implement PBL?

- PBL is a process, not a program.
- Schools typically take between 2 to 5 years to fully implement the essential features of the whole school approach.
- Initial development and implementation of school-wide systems can take up to two years to effectively implement.
- The implementation process is ongoing and constantly modified to meet the changing needs of the school.

# Positive Behaviour for Learning

## What if my school already has other programs and practices in place?

- Schools are encouraged to continue to implement programs that are already effective.
- The PBL framework supports schools to embed their effective programs and practices as part of their whole school strategic and planned approach to wellbeing.
- PBL will support consistency of implementation these practices.
- At Telopea Park School, PBL supports and runs with our existing programs and processes such as Restorative Practices and our school values

# Positive Behaviour for Learning

Telopea Park School Values are incorporated into Positive Behaviours for Learning and used in our day to day language

# Positive Behaviour for Learning

## What have we done so far?

- We started in 2022 with both English and French streams working together.
- We collected data around what behaviours teachers found most common.
- We built our bilingual matrix with input from parents, teachers and students.
- We attended professional learning sessions and discussed our values in relation to PBL.
- We developed posters and lessons.
- Teachers designed lessons and 2022 Year 9 and 5 students recorded videos to teach the expected behaviours.
- Lessons were taught at the beginning of 2023 for outdoor Passive Spaces by classroom teachers.
- Was an integral part of Year 7 Orientation Day

## Where are we going?

- We are surveying “What acknowledgements happen across the school”
- Looking at a whole school “acknowledgement system”
- Monitor progress and improvement
- Implementation in 2023 of an Acknowledgement System after student and staff consultation

# Positive Behaviour for Learning

Examples of other schools acknowledgement systems:

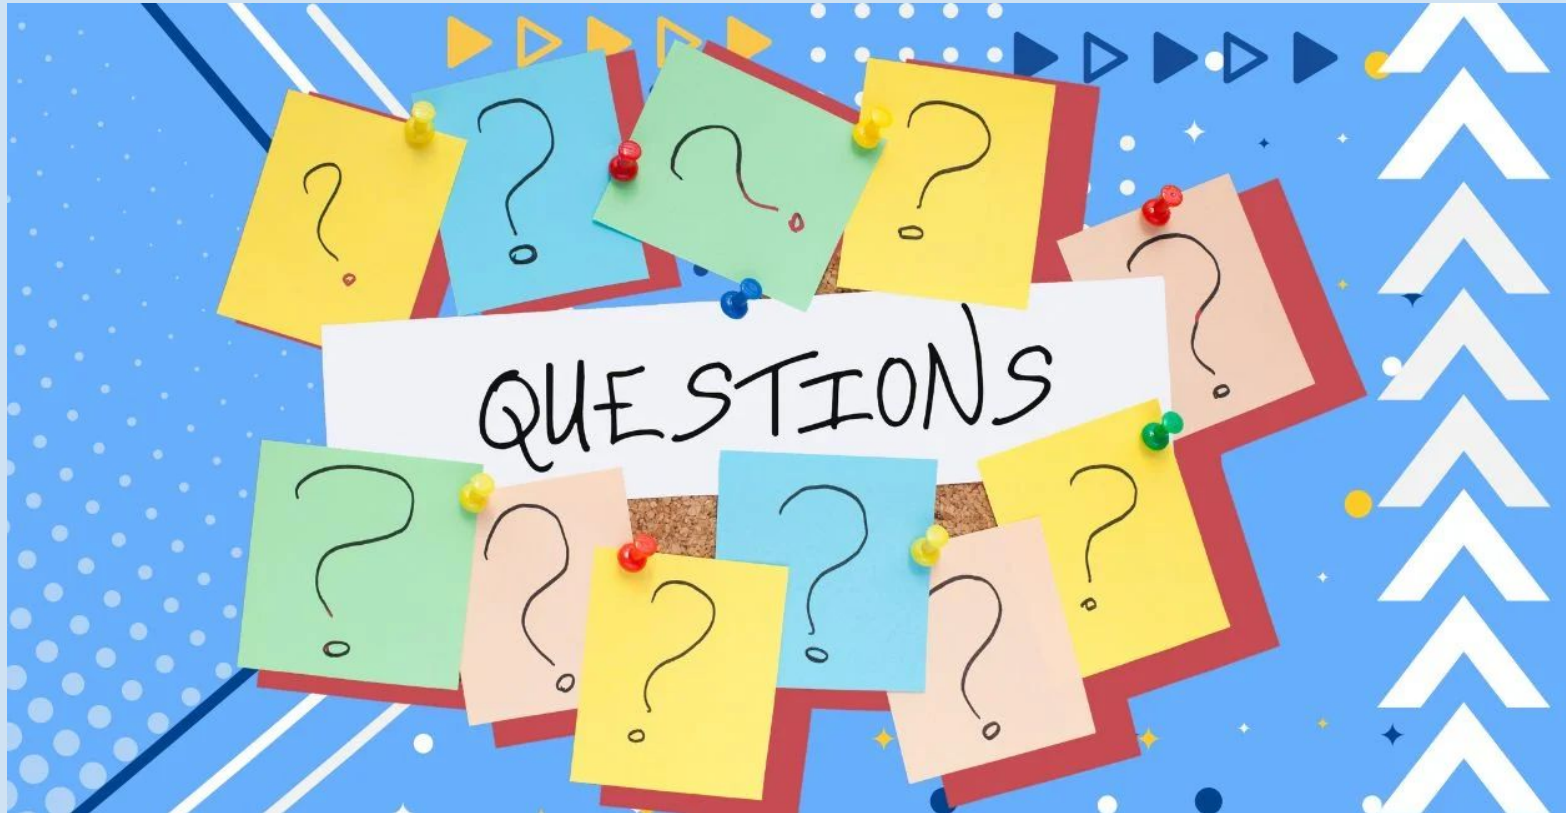

# Positive Behaviour for Learning

## Keys to successful implementation

- Implementation of PBL requires the commitment of the whole school community.
- The aim is to encourage and create a positive, safe and supportive learning environment.
