Enquête Nationale (NCCD) 2014

Le projet d'Enquête Nationale collecte des données auprès des écoles concernant le nombre d'élèves nécessitant des aménagements dans leur éducation. Un courrier sera envoyé aux familles des élèves qui auront été repérés comme nécessitant des aménagements et un soutien. Ce courrier décrit le processus et demande la permission à la famille d'inclure leur enfant dans l'enquête. Au niveau national, le mode opératoire prévoit qu'aucun nom ou information personnelle ne sera collecté. Vous pouvez obtenir plus d'informations sur le NCCD sur le site internet du Ministère Australien de l'Éducation en cliquant sur le lien suivant: <http://education.gov.au/nationally-consistent-collection-data-school-students-disability>

En 2014, tous les établissements de l'ACT participeront au NCCD. Les écoles repéreront les élèves nécessitant des aménagements et qui sont identifiés comme correspondant à une description des handicaps au sens large. Cette définition est basée sur les *Disability Standards for Education 2005* qui définissent de façon exhaustive ce que constitue un handicap et qui ne requiert pas de diagnostic médical ou de spécialiste.

Inspection 2015 du Programme de Premier Cycle Secondaire Year 7-10 (MYP)

Au tout début de l'année scolaire 2015, une équipe d'officiels du Baccalauréat International (IB) visitera l'école afin d'évaluer le Programme de Premier Cycle Secondaire (Year 7-10).

Cette évaluation a lieu tous les cinq ans après autorisation. L'évaluation du programme est à la fois une obligation et un service demandé par l'IBO aux écoles proposant l'IB.

Les enseignants et les élèves contribuent au questionnaire d'autoévaluation. Merci aux parents qui ont déjà participé à ce questionnaire. Les réponses de la communauté scolaire identifieront les principales réalisations achevées au cours de la période d'évaluation ainsi que les pratiques qui devront être développées. Un rapport prendra en compte les résultats du questionnaire d'autoévaluation afin d'établir un Plan d'action. Le plan fait partie des documents-preuves. Après que l'équipe d'inspection a fini l'évaluation de l'école, l'école utilisera les recommandations du rapport d'évaluation de l'IB dans le Plan d'action pour le nouveau cycle quinquennal. Tout membre de la communauté scolaire ayant des questions à propos de ce processus ou qui souhaite participer au questionnaire d'autoévaluation peut, s'il le souhaite, contacter Michele McLoughlin (*Principal* adjointe et Coordinatrice MYP) au 62055599 ou au 61423388.

HIGH SCHOOL ANNOUNCEMENTS

Career Development Report

As the Telopea Park School Career Development Officer, I have been impressed with the increased number of students coming to see me about:

- securing a work experience placement (WEX),
- gaining a tax file number
- or seeking information about an Australian School Based Apprenticeship(ASBA).

Despite only working two days per week (Wednesday and Thursday), the number of students undertaking a WEX placement has doubled from previous years. I am sure this is because more students are beginning to think about employment pathways, they may select in the future..

A work experience placement is an opportunity to test the realities of working in different professions of their choice.

Since the last Telopea Topics, Jordan Rattenbury has had a four day WEX placement at Motorini Scooters in Phillip, and Tandia Collins enjoyed five days at Quesatcon within the Public Relations area.

Telopea Park School has a group of students who belong to a community service club called, Interact. This is a joint Rotary Club (14-18 year olds). Interact is short for international action.

For the past few years the Interact Club of Telopea Park School has been fundraising to build a new school, hall, kitchen and library on a remote island in Vanuatu. This building was opened in Vanuatu last year. This year Rotary is spending the remaining money raised by the students, to install 15 computers in the new Vanuatu library. This project has been a remarkable journey and each student who participated in the project gained numerous employability skills, as they worked to achieve their goal. These employability skills are: planning and organisation, technology, learning, communication, teamwork, problem solving, initiative and management.

Last week Rotary invited seven students from Telopea Park School, to attend the 2014 International Rotary Convention in Sydney. This conference had over 22,000 delegates from over 154 countries. The seven students from Telopea, helped to staff the Rotary District 9710 Interact booth in the 'Hall of Friendship' and while doing this they discussed their project with Rotarians from around the World. Each delegate at the Rotary Conventions received a book that showcased different Rotary projects within Australia. The Vanuatu project undertaken by the students from Telopea Park School, was fortunate to be one of the projects, selected to be published in the book. A copy of the double page article is attached to this newsletter.

Volunteering can be a very rewarding experience and another way of gaining skills that employers are seeking.
